

*Waste Management*  
*Call 296-8297*

if you want someone  
to manage your waste,  
anything gone bad.

Human waste:  
wasted time, wasted lives.  
Removed by large-assed trucks.

Waste Management  
writes in small black letters  
the contents of each deposit.

Barges piled with refuse travel  
out to sea, pour it overboard.

There was no waste management  
at my house as a child—  
just a dump where my brother shot rats.
